

30 hours Parental Demand Survey

Hampshire County Council is undertaking a parental survey to understand the future demand for 30 hours free childcare.

They are wanting to hear the views and experiences from parents/carers to help shape the delivery of the extended childcare offer for September 2017.

They would particularly welcome the views from those who have children with additional needs (including special educational needs or disability).

The 30 hours free childcare Parental Demand Survey can be found here:
